THE NEW TAVERN ACT .- The following is a full copy of the act reported by Mr. Fitzpatrick, from the Committee on Police of the Board of Aldermen. It is in response to the petition of Messrs. Willard

An Acr to regulate taverns and ordinaries and to prohibit tip: ling-houses.

Be it enucted, &c. That, from and after the pass :ge of this act, the person or persons applying for a license for a tavern or an ordinary shall, before ob taining the sam-, deposite to the credit of the general fund the sum or sums following, viz: For a license to keep a t vern in which there are forty rooms r more in which guests or boarders m. be accommodated, \$200.

For a license to keep a tavern in which there ar less than forty and more than twenty rooms in which guests or boarders may be accommodated, \$150. For a license to keep any other t vern or ordicary \$120; the number of rooms to be ascertained and communicated to the Register by the Commissioner of the Ward is which such tavern or ordinary may he located; and that the 10th section of the act of June 3d. 1853, to "license, tax, and regulate taverns and ordinaries," be and the same is hereby repeated. Sec. 2. That, from and ofter the first Monday in November next, all tippling-houses shall be and are hereby prohibited; and any person or persons who shall, after the said first Monday in November next, be found guilty and convicted of keeping a t pplinghouse within the boundaries of the city shall, for each and every such offence, pay a fine of twenty dollars, to be collected and applied as other fines due this Corporation; and on failure to pay said fine, or of securing the payment of the same, the person or persons so offending shall be committed to the workhouse for a term not less than seven nor more

Sec. 3. That the act entitled "An act to prohibit tippling houses and to suppress the sale, by the small, of spirituous and intoxicating liquors," ap proved October 9, 1854, and all other acts and part of acts inconsistent with the first and second sections of this act, be and the same are hereby re-

THE NAVY YARD .- The skilful chief of the boiler and buoy department, Mr. Thomas Champion, having received a large order for the manufacture of can and nun buoys, has increased his force to sixty men, and their music reverberates merrily throughout the establishment. In a short time, in the same branch the work will be commenced on the four large boilers for the Government steamer Minnesota. This will bring in another accession to the present complement of worthy mechanics. None but the best workmen will, or indeed can be, employed advantageously thereupon. The sheets of iron now being manufactured by Mr. Abbot, of Baltimore, for the boilers, range from ten to fourteen feet in length, in width from five to seven feet, and three eights to half an inch in thickness. These sheets are of larger dimensions than were ever worked into boilers in this, or perhaps any other country. The boilers are designed by that scientific officer Edward Martin, engineer in chief of the U. S. Navy,

and other gentlemen. The name of Martin, how ever, as connected with this massive machinery, is of itself a sufficient guaranty to the country that it will be all that is desired. The ship carpenters have already won for themselves a high reputation, not only professionally, but by their generally discreet exemplary department. It is surmised that since the days when old father Noah had the ark built, a better set of workmen has

and are highly approved by chief engineer Hunt,

not been brought together. Indeed, every branch of business here now pos sesses unusual interest; the foundations for new shops and grading the elevated ground on the north of the present foundery also makes "assurance doubly sure" that this navy yard wil receive the fostering care of our government.

ACCIDENT TO A CHILD .- Woolen Clothes .- On Monday night an accident occurred to an infant son of Mr. N. L. Carr, residing on the avenue between Third and Four-and-a-half streets, which endangered its life. The child, about eight years old, was left in charge of a colored girl, when the latter falling asleep, the infant tilted a lighted candle into its iap, which set its clothes in a blaze. The mother, in another room, heard a stifling cry and rushed in, finding the child as stated. She covered the little sufferer with the first suitable article she could lay her hands upon, and smothered the flames. On examining the body of the child it was found that the woolen clothes it wore, protected it from serious inviury, the bare arms and other exposed parts being the only places scorched. A little calico wrapper was burnt to ashes. It was a narrow escape of the child, and we report it as a caution to mothers, to see that their children are clothed with woolen, which will protect them from these accidents by fire, so often happening.

AN ACCOMMODATION TO TRAVELERS .- At the depot of the Washington cars is an accommoda;i n not provided at any other depot that we know of, which is of much interest to travelers. It is the eating establishment of Mrs. L. A. Tarlton, where a hasty smack or full meal may be taken, occasioning the least possible delay. To passengers in the early morning and late night trains, especially, is this refectory an accommodation. Mrs. T. keeps always ready the substantials of life, and serves them at reasonable prices, well prepared for the comfort of the inner man. Attached is a saloon for ladies, who can be also supplied with the good things of her table, per order and promptly. Mrs. T. is the benefactress of travelers—at the Depot.

PRICES OF FUEL .- Hickory wood is selling at \$6 to \$7 per cord; oak, from \$6 to \$6 50; pine, from \$5 to \$5 50; red ash coal is \$8 75; white ash coal. \$8 50. In Baltimore, hickory is \$7; oak, \$4 50 to \$6, and pine from \$4 to \$4 75; and coal, \$7 to \$7 50. The comparison for the pness, it will be seen, is us favor of Baltimore, and why it should be so much against the citizens of Washington we cannot see. Baltimore and Washington draw their supplies from pretty much the same sources, and their facilities for transporting to the respective cities the same.

CARLESS AND CRIMINAL DRIVING .- A little boy, between three and four years old, son of Mr. Mc Dermott, on D street, was run over yesterday afternoon by a baggage wagon, at the corner of 7 h and D streets, and severely hurt. The practice of dashing along the streets and round corners, without re gard to the life or limbs of the passers-by, is a habit which calls for the most severe punishment which the law will allow. Insult is often added to maury by the offenders; and in this case, we understand, there was evinced a want of feeling which should be prope ly borne in mind by the officers of the law.

THE CO AND CO CLUB BALL .- To-morrow even ing, at Sarepta Hall, Al-xandria, the grand ball of this social club is to take place, and we would say to our Washington readers that they can certainly pass a very pleasant night with the brotherly "Co and Co's." They have excellent cotillon music from this ci y, have prepared the best of refreshments for the ladies, and will see that all who become their guests shall be hospitably provided for. That latter article, hospitality, is significant of 'Old Virginia." "Ami 'will doubtless tell us all about the rich affair.

To-NIGHT IN ODD FELLOWS' HALL .- The first exhibition of Morgan's grand Panoramic Mirror of Creation and Deluge with the Concert by Miss Ellen Sophia Emmons, the blind vocalist of Boston, will open at 71/2 this evening. By its former reputation, by the recent add tions to the paintings, by musical attractions, and by the interest already apparent to witness it, its prospects of success in this city, are even more flattering than when first opened to the criticism of a Wash ngton audience.

AN OUTRAGEOUS WOMAN .- A colored woman named Rebecca Grantum was brought before Justice Morsell this morning, charged with threatening the life of her hu-band, and acting in an outrageous manner. It appears that she was intoxicated. The Justice committed her to jail in default of bail, at the thought of which she became very repentant, and attracted the boys by her crying. She brought it on her self, and has only to be a good woman and all will be right again.

SUDDEN DEATH AT A PUMP .- This morning, while a colored woman named Amelia Parker was pumping a bucket of water on Sixth street, between D and E, she fell dead on the pavement. She never spoke a word after she felt. An inquest was held over her, and a verdict given of death from disease of the heart. Her age was about 58, and she was a respected colored woman.

CORRECTION.—In the proceedings of the Board of Aldermen, as reported in the Star vesterday, Mr. Alfred Hunter was inadvertently represented as petitioning adverse to the license laws. Mr. Hunter's petition was against the repeal of the recently passed liquor act, and in favor of its effectual enforcement.

LOT SALE .- A lot of ground, twenty feet front and one hundred and thirty-four feet deep, on New Jersey avenue, near Colonel Foy's hotel, was sold at auction, yesterday afternoon, at thirty-six cents a square foot. Other lots were offered in the same neighborhood, but there were no purchasers.

RACES TO-MORROW .- Lovers of the turf will re member that the races at Bryantown, St. Mary's county, commences to-morrow, and will continue till Saturday. Some fine sport is expected.

WATCH RETURNS .- The only cases on the records of the watch house for last night, were George Drudge drunk and disorderly; workhouse thirty days. D. P. Kurtz, for assaulting Wm. Fues and Ann Green; Kurtz, for assaulting Wm. Fuss and Ann Green; In this city, on the 21st instant, WILLIAM D. held to bail to keep the peace, and in default of bail NALLEY, in the 47th year of his age, formerly of was sent to jail.

FIRE LAST NIGHT .- At about 10% o'clock last night, a light was seen to the north of the city, cre ating an alarm, and drawing the firemen to the scene of conflagration. We learn to-day, that a portion of Columbia College, or some place in the neighborhood, had caught fire, doing, however, but little

GEORGETOWN CORRESPONDENCE

GEORGETOWN, October 25, 1854. The following items taken from a report made to our City Councils in 1827, by Col. Cox, then Mayor of our city, and the venerable John Mountz, our present Clerk, may be somewhat interesting to many of the readers of the Star in Georgetown at the present day:

Assessed value of real and personal property with in the limits of the Corporation, \$2,680,311; rate of taxation recommended on real and personal property, 12% cents upon the \$100; indebtedness of Corporation, \$85,793 46; current expenses of the Corporation, including interest upon the above debt, \$13,000; revenue from indirect taxes, \$10,000; amount of revenue necessary to be raised by direct taxes to meet the current expenses of the Corpora-

From the above report it will be discovered, that instead of advancing in value, the property in our city has actually (according to the showing of the present assessment) decreased in value some \$200,-000 since 1827. To suppose the above to be the fact, is to suppose something too ridiculous and absurd, to be entertained by any sane man for a single moment What was the condition and appearance of the property, and the amount of business done in Georgetown in 1827, when compared with the present time. We believe that every man of observation and judgment will agree with us when we assert that the property, real and personal, has increas in appearance and value, at least one hundred per cent., and that the business generally has increased in a great r ratio. In proof of this assertion, it is only necessary to call attention to the vast amount of very valuable property which has been erected in our town during the last few years, the great and steadily increasing value of property generally, and to one single article of trade. In 1827 the whole aurount of flour inspected, was 80,000 barrels; in 185; if we mistake not, it reached over 400,000 showing an increase in this and article of trade of over 500 per cent. Moreover, we think it can be shown from reliable data, that house rents at the present time are from 25 to 50 per cent higher than they were at that day. Then why this material difference. We leave the question to be solved b, our city fathers at their next session.

The following very just and severe rebuke was administered on last Sabbath morning, by the p stor of one of our churches, to those persons who are in the habit of annoying the congregation and preacher during divine worship, by abruptly going out of the house, or sleeping during the delivery of the sermon. Being frequently interrupted by the above named class of persons, the preacher, right in the midst of the delivery of a discourse, which was well worthy the attention of the greatest literary character in he land, deliberately closed the Bible and took his seat, with the remark, "I had better close my ermon One portion of the congregation is continually interrupting me by running out, and another by sleeping The effect was like an electric shock, the goers out were suddenly checked, the sleepers roused up, and while some of those who went to hear, similed others looked disappointed and chagrined, that they were thus summarilly deprived of hearing the minister with his very interesting discourse. In his concluding prayer he offered up the following point ed and somewhat amusing petition : "We pray thee Lord, to have mercy upon those persons who come to church to annoy the congregation and preacher, by running out during, and before the services are closed, and, in a special manner, pity those who are in the habit of annoying the preacher by sleeping all the time of the delivery of the sermon." We think he might hav also petitioned for grace to enable those who attend some of our churches, and deluge e floors with tobacco ju ce, and others who loaf about the doors, and in the vestibules, and annoy the congregations with their vociferous talking, to decist from their bad practices.

We learn that some vandal, a few nights since, defaced the entire front of Mr. Pettit's vault near the twenty buildings, by smearing it over with filth. Who ever it was, they richly deserve a good coat of tar and feathers.

The weather with us continues delightfully pleasant, but unusually dry for the season. Flour this morning is firm, with an active demand for city trade, at \$8.25@8.50. he supply continues very light. White wheat \$1.80@1.85; red, \$1.75, and in demand. SPECTATOR.

ANOTHER PREMIUM.-Mr. WHITEHURST has been awarded another premium for his superior Daguerreotypes, exhibited at the World's Fair, New York. It will be remem-bered that Mr. W. received from the World's Fair, London, two medals for his unrivalled daguerrectypes of President Fillmore and Cabinet, and Pantiscopes of Niagara Falls, be-sides premiums at all the fairs at which he has exhibited for many years past. This speaks volumes in favor of his galle ries.

WASHINGTON LODGE, No. 2, I. O. O. F., Norfolk, July 26th, 1854. Mr. B. Burrow—Dear Sir—In compliance with your request we inform you for the benefit of the public, that a brother of our Order, John R. Jasper, became sick while a stranger in this city, and in consequence of his destitute condition was sent to the Hospital, where he was found by a scommittee of this Lodge, suffering from a disease termed Scrofula or King's Evil, and in so low a state as to be pronounced by the physicians incurable. On recommendation of a brother he was induced to try your medicine, and in three weeks was declared cured and left the city for New York; and in our opinion his restoration to health was caused solely by the use of your specific. Given under our hands and seal of our Lodge the date

above written. JAS. H. BANSON, N. G. E. CHAMBERLAIN, Secretary.

Dear Sir—In compliance with your request, we, the un-dersigned, cheerfully state that in the fall of 1844 our attertion was directed to the deplorable condition of a stranger named John R. Jasper, who had been treated for Scrofula without effecting a cure, and at the suggestion of a friend with some others of the Masonic Fraternity, of which Mr. Jasper was a member, directed you to administer your Elix-IR VITE, and that after he had taken it some weeks he was declared cured, and left Norfolk apparently a well man.

Respectfully, &c. Simon Stone, Philip I. Cohen,

Mr. B. Burrow. For Humors, Inflammations, Venereal and Marcurial Diseases, Scrofula, Coughs, Colds, Fevers and Consumption in its first stage, it is the only infallible specific.

IT SHOULD be universafly known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhesa, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspeptics; think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, curative, and invigorant, stands alone and unapproached. We have tried the Bitters; and know that they are excellent for have tried the Bitters; and know that they are excellent for the diseases specified above. For sale dealers in medicine
